# Beta Pocket

**Designed for the application of transfers** to all types of small garments, the Beta Pocket features our renowned Digital Controller for the accurate pre-selection of both time and temperature.

**The Position of the base platern is adjustable.**

**The Beta Pocket Press** is a manually operated heat press for printing onto pockets and similar small items. This simple robust machine is powered by a micro-processor for control of both heat and dwell accuracy and ease of operation and requires minimal operating space.

**The work area of the Beta Pocket Press** is 15 x 9 cms (6 x 3.6 ins).

**The Beta Pocket Press** is produced in two sizes and two versions, nominally 230-240 Volts AC for the `European` market and nominally 120 volts AC for the `American` market.

| Specifications         | European Machine          |
|------------------------|---------------------------|
| Power Consumption      | 500 Watts                 |
| Power Supply           | 230-240 Volts AC          |
| Working temperature    | 70-235°C                  |
| Display Timer Range    | 0 - 9.59 mins             |
| Machine height open    | 80 cms                    |
| Machine height closed  | 43 cms                    |
| Machine width          | 28 cms                    |
| Machine depth          | 52 cms                    |
| Work area required     | 28 x 47 x 73 cms          |
| Weight export packed   | 18 kg                     |
| Size export packed     | 57(L) x 34(W) x 51 cms(H) |
| Net weight             | 15 kg                     |
| Press pad dimensions   | 10 x 8 cms or 8 x 6 cms   |
| Fuses                  | 3.15 A                    |
| A-weighted noise level | <70 dB(A)                 |

| Specifications         | USA Machine                   |
|------------------------|-------------------------------|
| Power Consumption      | 500 Watts                     |
| Power Supply           | 120 Volts AC                  |
| Working temperature    | 160-455°F                     |
| Display Timer Range    | 0 - 9.59 mins                 |
| Machine height open    | 32 ins                        |
| Machine height closed  | 17 ins                        |
| Machine width          | 11 ins                        |
| Machine depth          | 21 ins                        |
| Work area required     | 11 x 18.5 x 28.75 ins         |
| Weight export packed   | 39.7 lbs                      |
| Size export packed     | 22.4(L) x 13.4(W) x 20 ins(H) |
| Net weight             | 33 lbs                        |
| Press pad dimensions   | 4 x 3 ins x 3 x 2.3 cms       |
| Fuses                  | 6.3 A                         |
| A-weighted noise level | <70 dB(A)                     |
