The Beta Swift is a manually-operated table top transfer press, which is particularly suitable for laundry marking/fusing and label application, as well as general usage.

This fully portable machine can be used virtually anywhere, simply plug it in. It's unique state of the art advanced computerised controller accurately monitors both temperature and time, to make it a world leader.

Initially designed for use in the laundry industry, the Beta Swift has now been developed for more wide ranging use.

Featuring a strong, light, aluminium construction, the Swift is fitted with self-aligning spring mounted silicone pressure pad to ensure correct pressure and an audible buzzer on the timer mechanism. The simple, robust machine is powered by a microprocessor for control of both heat and dwell accuracy and ease of operation and requires minimal operating space.

Each Swift Press is produced in two versions, nominally 230-240 Volts AC for the European market and 120 Volts AC for the American market.

Specifications

European Machines

Power Consumption	500 Watts
Power Supply	230-240 Volts AC
Working temperature	70-235°C
Display Timer Range	0 - 9.59 mins
Machine height open	61 cms
Machine height closed	28 cms
Machine width	23 cms
Machine depth	47 cms
Work area required	22 x 61 x 43 cms
Weight export packed	14 kg
Size export packed	55(L) x 29(W) x 33 cms(H)
Net weight	10 kg
Press pad dimensions	13.5 x 9.5 cms
Fuses	3.15 A
A-weighted noise level	<70 dB(A)

Our specially designed microprocessor controllers give accuracy for time and temperature settings, vital with today's heat transfers.

**HEAT PLATES
SILICONE PADS****Heat Plates - Silicone Pads**

All heat plates are covered with a protective TEFLON® coating and many are made of cast aluminium (cast aluminium heat plates carry a life-time warranty). Quality silicone rubber base pads are used to provide excellent transfer results every time.

APPEARANCE**Appearance**

To maintain the good appearance of the press all cast frames are powder coated. This proven baking system will protect the machine from discolouration and minor knocks and scratches.

OPERATORS MANUAL**Operators Manual**

Full specification and operating instructions on all aspects of the machines, electrical diagrams, exploded diagrams and parts list are included with every machine.

SERVICE - PARTS**Service - Parts**

You can always speak directly to our service department technicians for any technical support or information. We also carry spare parts for all of our machine range.

ACCESSORIES**Accessories**

We offer a range of detachable tables for various other operations requiring special sized platens for example, umbrellas, bags etc.

CONTACT**Contact**

We are always here to help.

**QUALITY
ENGINEERING & SAFETY****Quality Engineering & Safety**

Each press is individually hand-built. All ADKINS machines are built to the highest standards, we use only the best quality components, they are all tested to comply with the various safety regulations from around the world.
